SINNER BE WISE.

Tune—"Ally Maryland."

Oh, sinner, hasten to be wise,
And stay not for the morrow's
sun;
The longer wisdom you despise.
The harder it is to be won.

Chorus

# Then hasten, sinner, to repent, And wait not for the morrow's

611n: For lear your day of grace is spent. Befor, the needful work is done.

Oh, hasten, mercy to implore, And stay not for the morrow's For fear your season should be o'er.

Oh, hasten, sinner, lo return, And slay not for the morrow's

For fear your lamp should fail to burn.

Before the needful work is done.

Oh, hasten, sinner, to be blest, And slay not for the morrow's

For fear the curse should you arrest, Before the morrow is begun.

Tune—The Wee Hoose
There upon dark Calvary's hilliside,
Hanging on a rungged tree,
There I saw my Saviour dying.
That from sin I might go free.
Nefer did man thus switer,
Hanocent of wrong war hill
That I le night et a singer free.
That I le night et a singer free.

Chorus.

Chorus.
There's a massion up in Glory.
Over on the Crystal Sea.
There's a tobe of purest whiteness,
All prepared for you and me;
Come now and get your sins for-

Game now and get your one gives.
By the Christ Who died for thee.
If you knew Him you would love Him,
Just the same as me.

Twas for others fie left Heaven.
Not for sins that He had done,
But for its to make atonement,
That the worst to Heaven might
come.

Dillions have already landed.
There no shadow dims the sky.

### MESSAGE FROM THE GENERAL

COMPADES AND ERIENDS ---

We have selected the week, April 3rd to April 10th, to be Self-Denial Week this year. No doubt many things will be done in this matter before those dates, and come things will come after, by those will be the critical days—the days during which we invite all to join in some acts at Self-Denial ar Self-Sacrifice which will earlied. Treasury of our Lord and Master.

THANKELL FOR COD'S COODNESS

any filled with thankfulness for the gandness of God to the Army during the past memorable year. It has been a good year. It began well. It continued well. It finished well. God's presence with began well. It continued well. It finished well. God's presence with us is manifest in every land and in every department of work. The tidings of Salvation are going farth in many tongues. More and myse our dear Officers are learning to reach the hearts of the people and to win them for God and rightcoursess. Every year in oor history adds. win them for God and rightcousness. Every year in our minor, some new methods for gaining the moble ends of Holy Worfare. Looking back, I see numberless tokens that the Lord's Hand is upon us for good, that His Wisdom leads us on, and that day by day His window has been been used to be the seen of the house of the h Arm brings Salvation. For all this, I say from my heart. "Thank our mighty Lord and Saviour!" and I invite all who may read these words to join me in this giving of thanks to Him.

And remember that the Army is, praise God, everywhere a Movement charged not only with love to God and man, but moulded and fashioned with a view to turning the attention of the people to and hablaned with a view to turning the attention of the people to-wards the great Emanteplation—namely, that freedam from an and selfishness which is the great need of the whale world. Yes, that really is the great need. Every class alike—high and low, powerful and weak, capitalist and labouring, aristocrat and democrat—every class needs that freedom

If it could be possible for every party in every State all at once It it could be possible for every party in every State all at once to realize its programme, and get all its wants from the others, now of them would be satisfied or happy unless they got this—the liberty from sin, the grand freedom from selfish saims and selfish desize—the great Emancipation from the bendage and power of Evil. Well let us thank God that the Army is proclaiming to all inen the Grest Deliverer, He who brings this very Delivarance.

### GREATNESS OF HIS MERCY

But if it is well to give God thanks for the whole Army, it is well But it it is well to give God thanks for the whole Army, it is well to give Him thanks for the greatness of His mercy towards us an individuals. How much the has done How much he has done for ut What grace! What patients I What unchanging love! What in whounded goodness He has shown towards us! Why, it is just impossible to remember all His mercy, ar to measure His lave! The fact is that the multitude is wham I write this Message, if it had not been for the wearderful fill of the state of the How He was the him the house of the him the wonderful gills of parden and purity we have received at His Hands would long ago have been dead and damned.

So I say again, Let us give thanks to the Lord our God, for His mercy endureth for ever.

I feel assured you will help ma in this Self-Donial Campaign-You have never failed me. You will nat fail mo now. You know the need of money—you know that just now we need more than ever, not only because we are doing more work than ever, but because maney does not go nearly no, far as it did a few years ago. You knaw how important it is to press tha work ulready begun so well in tha dark loads.

Yes, I know you will help me. But I specially desire that you shall do so in this Spirit of Thankegiving. Every gift—whether large or small, whether coming out of your poverty or out of your and an advance—will be increased in its power and blessing if it is given all the small of Code, with bamble gratitude for all it has done and for the small the small of the code and the small the small of the small th all He will vet do.

May your hearts be enlarged to halp us forward, and may the garments of praise and the spirit of a great and exceeding joy be yours

Yours affectionately, BRAMWELL BOOTH

HOLINESS MEETING.

Conducted at Verdun by Lieut. Colonel Bettridge,

The United Holiness meeting for Monreal was held at Verdun Corps on Friday, February II.

on Friday, February II.
These meetings are a means of great livesing to all who attend. The Spitt of God is very much feit both in the beautiful Holmess songs that me saug and the inspired words from Lieux-Colonel Bettridge.
On this occasion the Colonel spike to us on the kind of heart that policy is the second of the colonel spike to us on the kind of heart that holden and its server seek. Once that is broken and way from the world and its sin.

OCUSTS are mentioned many times in the Dille, and the old prophets have given us vivid descriptions of the devastation wrought by these pests. How wonderfully because are their accounts is evidenced by the experience of the American citizens in Jerusalem, who were called upon to hattle against an income of forcusts when Palestine and Syra were closed to the outside world by the war.

Clouds of Peus

Clouds of Pests

It was toward the end of February, 1915, that elouds of these years were first seen, fiying more jernstalem in such thick clouds as to obscure the sun for the inne heling. Fortunately, they did not settle in the Holly City, evidendly seeking greener and less populated districts. At Jaffa, however, millions were thrown into the sea by sudden showers that the season was also as the season of the pest were destroyed by the of the period was and ovens. All over the country tons of the pests were destroyed by the

of the pests were destroyed by the peasants, in order to save their crops and also for the small bonus offered

by the Governmen.
Sindents of Joel, who assert that
the first two chapters up to the 28th
verse picture an actual invasion of
locusts and not Juda's human enmics—as the Assyrians and Chaldeans—find a difficulty in the verse,
"And the northerner will I remove "And the northerner will I remay far from you," since locusts were reported to invade Palestine from the south. But in this instance, at least, the locusts came from the northeast, thus 'cstablishing the accuracy of Joel's account. Indeed, one maryels how this ancient proone marvels how this ancient pro-plet, writing some seven or eight hundred years. B. C., could have given so graphic and true a descrip-tion of a devastation caused by lo-custs in so condensed a form.

Stripping a Vineyard

The destruction wrought by these The destruction wrought by these peets was enormous, but law worse was to follow. Defore they departed the locusts laid their eggs, literally by the billions, all over the land. They were found on the banks not the Rivar Jordan, in the salt mars-bes of the Dead Sea, on the highest mountains, in the valleys, in the beautiful olive croves about Bethlebeautiful once groves about Bettile-hem, to the orange orchards of Jalfa, and on the seacoast at Tyre, Sidon and Gaza; in fact, they were found in all parts of the country from Dan

to Brersheba.
Once the abranius extent to which Once the abriming extent to which these eggs had been haid was realized, the authorities were greatly perturbed. Each remate lays about a hondred eggs, and it is computed that in a square yard of earth as many so \$75,000 are often deposited. Allowing for a loss of 30 per cent. in hatching, that means some 60,000 in hatching, that means some totam destroyers can emerge from a space 36 inches square. A proclamation was therefore made requiring each male person from sixteen years to sixty to gather eleven pounds weight of the tages. Thus many tons of eggs-

of the eggs. Thus many tons of eggs were uproted and destroyed. Scarcely had Jerusalem got near-the societized of the societized that the end of the societies of the societies of the parks. When first lateful they were quite black and resembled large ants, baving no signs of sings; but as they developed they possess there were obtained distinguishable through various stages, of which three were plainly distinguishable— the larva ar wingless stage, the pupa, with small wings, and the fulficeded flying locust.
